Clothes tear in combat, when hit.

6.9/10 IGN.. Edit: I was mistaken about the other characters not remembering your actions; see dev response

I thought I would like this game. I love stealth/sneak games and the prison setting. But it just wasn't that fun. It wasn't difficult, just grindy. And there were some bizarre design choices, like not being able to sell or barter with prisoners, characters seeming to have amnesia: the inmate I just beat up is fine being around me, being able to easily steal from other prisoners' cells. I can see why this game is popular with the mobile crowd, who seem to have a high tolerance for mindless repetition. I love the IDEA of this game, just not the execution.. The game does not work since Yosemite (1.5 year) and no answers from 11bits studio !

I won't buy any 11bits studio games anymore !. Robot drones on for very little payoff.. this game is great got it for \$1 and in my oppimion it is worth the full price , the graphics are nice and it is a great time killer that will make time fly by .

<http://steamcommunity.com/sharedfiles/filedetails/?id=310052041>. to gud to be true. This gigantic turd of a game is the bane of the idle gaming industry. It's like the developer was running low on moola and decided to drop this big fecal junk into steam. I mean, come on dude, this game is lacking soo much content and the graphics are♥♥♥♥♥too, but what can you expect from someone who decided it was a good idea to charge for what it would seem to be just a scoreboard boost, shame on this dev, the poor soul just lost so much credibility with this♥♥♥♥♥ Anyway, it's free so theres something, you could play it to see a good example of what not to do when you finally decide to make an idle game yourself.

[Cheers. Satisfying race game. 9 V 10.](#)

[You should also read my review about motogp 14.](#)

[Short review: If you played motogp 14 and liked it, you will like this too. This is a similar game with improvements. If you are new to bike racing, i suggest you to buy full version because this one does not have a career mode. For bike racing fanes, this game is pretty enough.](#)

[Long review:](#)

[I am a fan of motogp games and i have realy enjoyed this game. Motogp 15 is a bike racing simulation with realistic physics. There are real names \(marquez, rossi...\) and the game has enough tuning variety to include you into details.](#)

[Pros:](#)

- [Realistic game. Hardcore game :D](#)
- [Tuning is literaly the key to win or lose a race.](#)
- [There is an assistant to help you with tuning.](#)
- [There is a championship mode, where you can actually be valentino rossi.](#)

[Cons:](#)

- [Not exactly a con but this is a compact game without a career mode. I think there is no tutorial either.](#)

[You would like this game as a bike racing game. Even if you played motogp 14, this one has better graphics and optimization.. This is a very nice locomotive, one of the best available. Highly recommended.](#)

---

A cool idea, and smooth execution. Thing is, it's already filled with hackers and cheaters. I will never invest the time to confirm the developer's claim it's not pay2win, because of the cheaters.. I rarely find horror games fun, enjoyable and actually scary... But this one definitely takes the cake... Very well made, and super fun to play with friends.. Best game ever, better they bring it back. That game was an interesting Battlefield like. It has a solo mode with a story. This campagne is rapidly completed since it's purposed is to introduce the special items, weapon types, features, and the overall background.

The main experience is the multiplayer and it is dead. T

he main menu browser does not work anymore. There's a guide on steam explaining how to join a server in this game, but there are only 3 servers and they are all empty, so this is clearly a dead game that should not be sold on steam.

There's a LAN mode, so if you find a couple of 30-60 people willing to play it, that may be interesting, although you could do the same with Battlefield 2 which is in my opinion better.. Just when I thought this game couldnt get any better
